RATE REVISION MUST WAIT.

Hines Tells Executives Roads Must Go Under Private Control.

WASHINGTON, Oct. 8.—No general readjustment of railroad rates is possible prior to next Jan. 1, and after that any change should be made by the roads separated from Government control, Walker D. Hines, Director General of Transportation, informed the Association of Railway Executives to-day. The information was contained in a letter to T. De Witt Cuyler, Chairman of the association.

The question of new rates, according to the Director General, is based on two considerations. First, an issue could not be made on the basis of the unfavorable showing of the Railroad Administration during the early part of this year, because there was an abnormally small amount of freight traffic. The second consideration cited by Mr. Hines was that the public would not be satisfied with a general rate increase without the concurrence of the Interstate Commerce Commission.

13 RESEARCH FELLOWSHIPS
UNDER ROCKEFELLER BOARD

Selections Made by National Council to Promote Scientific Research Work.

The National Research Council announces the appointment to National Research Fellowships in Physics and Chemistry of thirteen candidates chosen from among seventy-five applicants. These fellowships each of which carries an annual stipend of \$1,500 or more, are supported by the Rockefeller Foundation and administered by the Research Fellowship Board of the National Research Council. The object of maintaining a system of research fellowships is to promote fundamental scientific research, primarily in educational institutions of the United States. The thirteen appointments made up to Oct. 1, 1914, are:

In Chemistry—F. R. Bichowsky, Washington, D. C.; Emmett K. Carver, New York City; Edwin J. Cohn, New York City; Morris Kharasch, Chicago; Axel E. Olson, Chicago; Worth H. Rodebush, Baltimore, and Warren G. Vosburgh, Voorheesville, N. Y.

In Physics—Ernest P. Barker, Rochester, N. Y.; Albert E. Caswell, Oregon; Arthur H. Compton, Wilkesburg, Pa.; Leonard B. Loeb, New York City; Robert A. Patterson, Bristol, Conn., and George P. Paine, Madison, Wis.

Distressed Steamer Safe. BOSTON, Oct. 8.—The American steamer Lake Gravett, which sent out a call for help last Saturday because of coal shortage, reached St. John's, N. F., last night, according to word received here to-day. The vessel is bound from Fowey, England, for Portland, Me.

MISSSES' AUTUMN APPAREL

The seal of approval has been placed upon the becomingness, beauty and durability of our carefully selected Apparel for the Younger Woman, portraying the latest Parisian ideas.

Misses' Dinner and Evening Gowns

Especially graceful and portray many chic new creations. Included are late imports developed in Silk or Gold Lace Tinsel, Brocaded Satin and Silk Tulle. The Street and Afternoon Frocks are particularly attractive and are fashioned in Silk Duveltyne, Tricolettes, Crepe Satins, Cordelaine and Beaded Georgette Crepe. Many new ideas in trimmings and collars.

\$45.00 to 385.00

Misses' Autumn Suits

Two and Three-Piece Models

INCLUDING late imports; particularly emphasized are the new length coats with snug fitting sleeves and smart tailored skirts. They are essentially youthful in design and express the ideas of the most celebrated couturiers to youth; fashioned of Silk Duveltyne Velour, Fortuna, Velour de Laine or Peach Bloom. The more dressy styles are elaborately trimmed with rich furs. Excellent values.

\$38.00 to 450.00

Misses' Wraps and Coats

For Street, Afternoon and Evening Wear

FEATURING belted, semi-belted and flare styles; rich fabrics are effectively combined with luxurious furs, each garment possessing the indescribable attention given to details of workmanship and finish which the Miss of 14 to 18 demands. They are developed in Marvella, Fortuna, Peach Bloom, Chameleone Cord Velour and Silvertone, and are handsomely silk lined with plain and fancy figured silks.

\$37.50 to 295.00

A Special Purchase and Sale of

Misses' High Grade Tricotine Frocks

\$28.00

Frocks that reveal at a glance the superior workmanship of the cleverest producers of Misses' Apparel. Developed in rich Tricotine, in Navy Blue—the most popular color of the season; artistic trimmings—the majority are attractively embroidered, however, many are beaded; several different models—some strictly tailored; string tie belts; silk-lined waists. Sizes 14, 16 and 18 years.

AIR BILL EXPECTED TO PASS CONGRESS

Curry Measure Provides Separate Department of 6,000 Officers and 60,000 Men.

The American Flying Club to-day issued a statement, which follows in part:

"Simultaneously with the start of the transcontinental airplane race, there will be introduced in the House of Representatives a bill for a Department of Aeronautics, which is designed to put an immediate end to the Air Service controversy which has persisted since the signing of the armistice, and which has nearly resulted in the destruction of American aeronautics. This bill, it is authoritatively stated, has the approval of Republican and Democratic leaders in both the Senate and the House, and is certain to pass Congress.

"The bill is to be introduced by Representative C. F. Curry of Sacramento. The bill for a separate Department of Aeronautics, introduced by Senator Harry S. New of Indiana and which is now before the Senate Committee on Military Affairs, will be so amended that it will harmonize with the new Curry bill. The amendment measure, it is declared, will be reported out favorably Wednesday or Thursday.

"The United Bill, as it is known, calls for the establishment of a Department of Aeronautics under a Director who shall not be a member of the Cabinet, but who shall be directly responsible to the President. The bill charges this Director with the responsibility of establishing at once a separate air force for the aerial defense of the Nation. It requires him to formulate regulations for flying, such as the laying down of rules, the licensing of pilots and the inspection of aircraft for airworthiness. It directs him to co-operate at once with municipalities and other public agencies in the immediate establishment of landing fields."
